

A PARENT'S GUIDE:

DRUG SLANG

July 2021

WHY DOES IT MATTER?

It is important for prevention providers, caregivers and educators to be informed about the different slang words used in reference to specific drugs and drug use. Creative names and abbreviations are used to disguise conversations and to not raise red flags for adults. There are a vast amount of names used in reference to drugs; the list below is meant to be used as a brief and easy to use guide for parents and caregivers to be able to pinpoint words they hear and be able to understand what they reference.

It is just as important for youth to also understand and recognize the vast amount of names used to reference drugs. Many students are unaware on the connection between street names and the actual drug they are referencing. For example: A student is offered "Molly" and doesn't know that it is in reference to MDMA.

Common Drug Slang:

Marijuana: 420, Aunt May, Blunt, Boom, Broccoli, Bud, Cannabis, Catnip, Cheeba, Chronic, Dank, Dope, Flower, Ganja, Grass, Green, Hash, Hashish, Hemp, Herb, Joint, Leaf, Mary Jane, Pot, Reefer, Skunk, Smoke, Stems, Trees, Weed
