

Coming This Spring

Independent Facilitation

Independent Facilitation is a new service you will get from the Division of Developmental Disabilities (DDD). **Facilitation** means to help or make something easier for another person. You will have a new member added to your DD team. This team member is called an Independent Facilitator (IF). You will still have your Social Caseworker.

The IF will help you write your Individual Support Plan (ISP) by:

- Helping you learn about the services, resources, and people that are available to you.
- Helping you explore new opportunities and activities.
- Checking in with you often to make sure you get what you need.

More updates on IF will be shared in the next few months.
