

RI Certified Community Behavioral Health Clinics

A CCBHC is a type of outpatient clinic that is certified by the State of Rhode Island to offer expanded behavioral health services. CCBHCs serve anyone who walks through the door, regardless of age, diagnosis, or insurance status. At a CCBHC, a team of trained health professionals can:

- give mental health support to you or a loved one,
- help you or a loved one with a substance use condition, and/or
- provide 24/7 crisis support.

What is 24/7 mobile crisis response?

Sometimes people who struggle with mental health or substance use have an emergency. When that happens, it may feel difficult or impossible to get help. You can call 988 to get connected with a CCBHC's mobile crisis response team 24/7 for help with a behavioral health emergency. Whether you're requesting help for yourself or a loved one, CCBHCs' mobile teams are trained to:

- assess the individual experiencing the emergency,
- de-escalate or calm down crisis situations, and
- connect people to needed services.

For a health emergency, like severe chest pain, trouble breathing, seizures, or a head injury, call 911 or go to the emergency room right away. You should also call 911 if you or someone you care about are in immediate danger or threatening to hurt themselves.

Interested in learning more?
Call 988 or visit a CCBHC near you to get connected to services.
